

TECHLINE FACTORY - WAUNAKEE, WISCONSIN

Overview

PRECISION MACHINING

The 450,000 square foot factory where **techline** is manufactured is equipped with the finest state-of-the-art machinery to assure extraordinary precision. Each step in the manuf. of **techline**, including melamine saturation and laminate welding takes place in the Techline Factory.

Chairman of the firm, Tim Erdman, has made a personal commitment to the design and manufacture of high quality cabinetry for the healthcare market.

"Our aim is to combine quality materials and a simple classic design with the highest technology, to mass produce a precision cabinetry system that is affordable, flexible, and aesthetically satisfying."

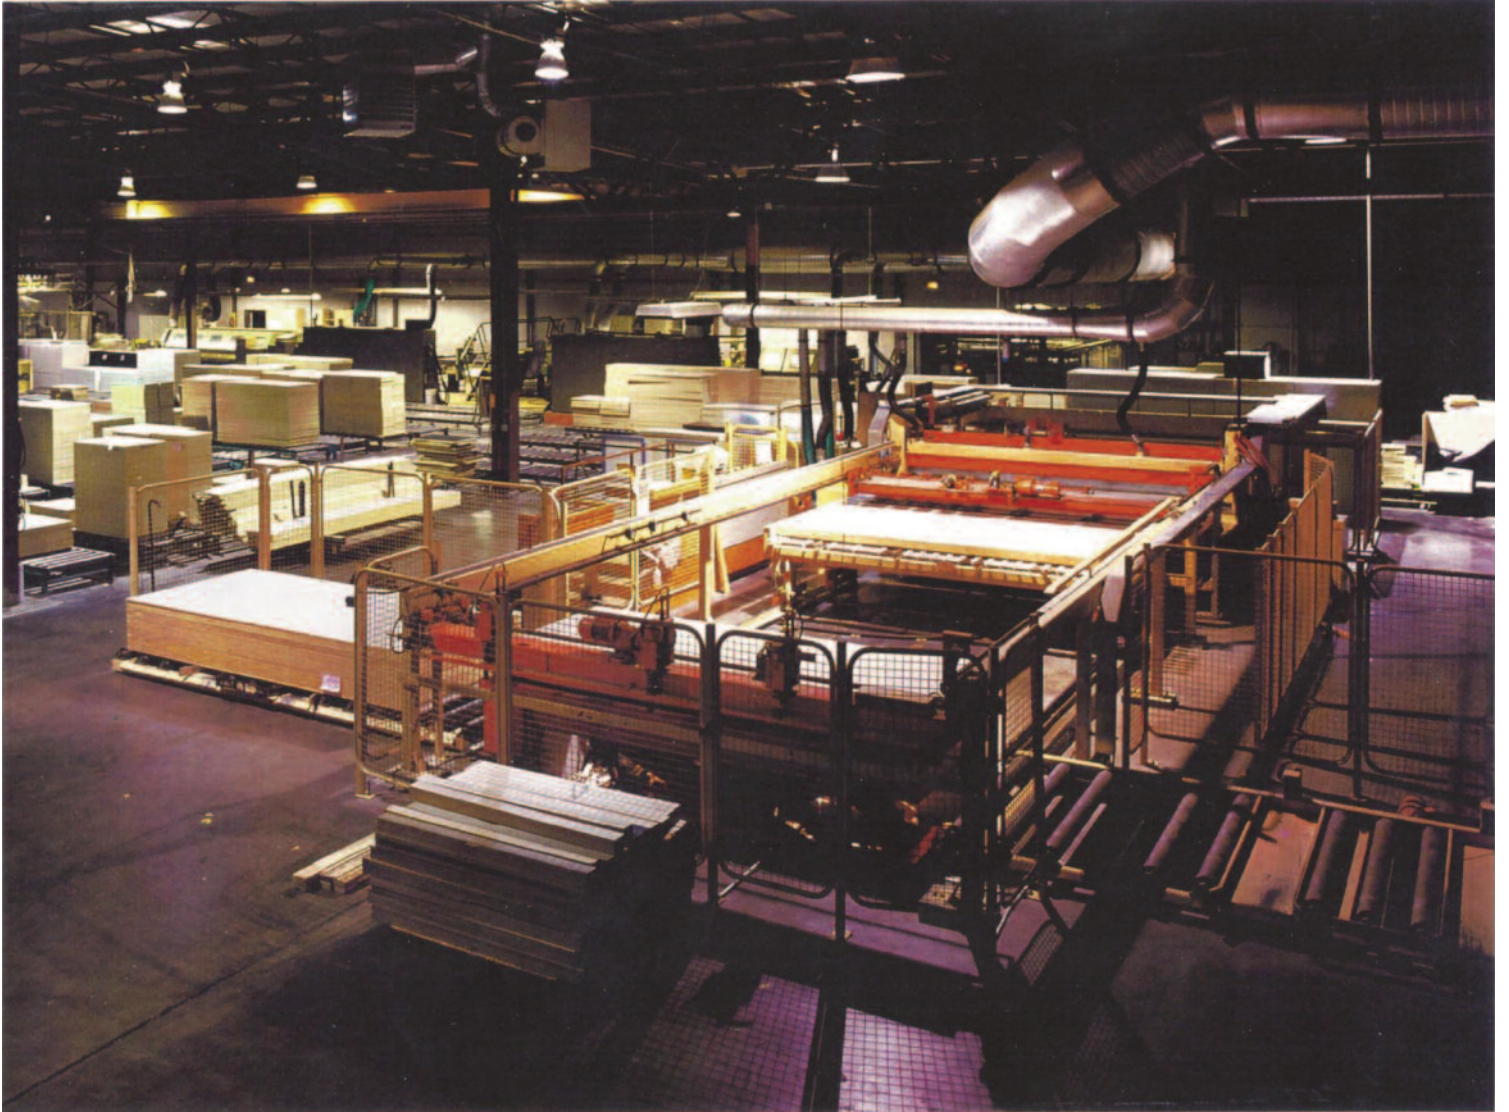

techline® Factory – Since 1954

Techline's assurance of satisfaction is our promise to you to replace any damaged panel for the next five (5) years. Our aim is to combine quality materials and a simple classic design with the highest technology; to mass produce a precision cabinetry system that is affordable, flexible and aesthetically satisfying.
