

## Reach-In Solutions

*Just wanted to say that I'm very pleased with the results of my closet buildout. I found your web site extremely valuable in allowing me to experiment with various designs and see the outcome immediately. Also, I was impressed that not only did all the necessary parts arrive in the shipment, but you actually included extras where you thought they might be useful – unbelievable!*

## Reach-In Solutions

*Just wanted to take a moment to thank you and your team for the super job from “click to brick.” Your web site was easy, the product shipped on time, looked great and installed flawlessly, just as you said. It’s not often that you get what was promised, but EasyClosets delivered in every category. The whole thing was precise and solid. The extra pieces of hardware always come in handy when you have a project like this. Kudos to the shipping team – on time, safe and packed perfectly.*

*My wife and I recently purchased a closet from your company. The ease and convenience of the installation process was "exceptionally easy."*

*The pre-drilled holes matched the shelves, the drawers and wall mounts fit perfectly. The instruction booklet was brief and informative for installation. Your company should be proud of its customer service, excellent merchandise and quick shipment. By the way, while I was at work today, my wife put the unit together by herself. It looks like a professional job.*

*Thank you.*

## Living Spaces

*I'll admit that I was a little nervous spending so much money over the Internet for a product I'd only seen in pictures. I was delighted to find that your product is everything you say it is, and more, and the closet in my bedroom looks wonderful. It was refreshing to work with a company that still believes in truth in advertising and good customer service. I'm currently measuring several other closets in my home and I look forward to working with you again soon. Thanks again.*

## Pantry

*We purchased an organizer from you, and it was great! The whole package went together so easily, it was amazing. We particularly appreciated that you gave us more hardware than what was required. Normal people like ourselves tend to mess up a fitting or two, and it was nice to know that we had some spare parts to be able to finish the job. We will definitely recommend your company to others!*

*Thank you!*

Easy to Design, Install and Love.

*My husband and I installed our new EasyClosets system last weekend. It could not be more beautiful. The hardware is gorgeous and I love the details, like how the finish of the hanger rods matches the drawer hardware. The closet was easier to put together than we thought it would be. We are so proud of our closet now. I don't think anyone would ever guess that we ordered it online and installed it ourselves. Thank you for a beautiful product.*

## Entryway

### ENTRYWAY

Mudrooms and entryways are high-traffic areas that quickly become cluttered. Our units create an attractive, organized space, where everything has its place.

*I began to look online at some ideas to finish my closet. The first site I found was easyclosets.com.*

*It is so simple to use. Everything I needed was right there. I especially enjoyed how you can customize to any length. I had 18 boxes delivered on time and nothing was missing or damaged. Installation was very easy and once you get started it progresses very quickly. I have told everyone about this website and the product and will continue to do so. Awesome! Thanks EasyClosets!*

**Cassandra P.**

## Bedroom Closets

*When you say easy closets you are not kidding. My husband, who has one arm, turned a bedroom into an easy closet! He was totally impressed with the craftsmanship and directions for hanging. We ordered the closet on Wednesday and received the shipment on Friday. He started the closet the following Tuesday and will complete it today, Wednesday (10 units). I can't believe it will be done in one week. We love our new closet. Thanks, EasyClosets!*

## Bedroom Suites

*I just wanted to write to tell you how happy I am with my new closet. Everything arrived in good order, and there was plenty of spare hardware to finish the job. As promised, the installation was very straightforward and the directions were clear. Now, one day later, our closet is installed and fully operational. It's perfect! My wife is thrilled. If I had built it myself, as I had planned to do, I'm sure it would have taken me many days. I couldn't have matched the professional results of your closet.*
